*innovations* SPRING/SUMMER 2010

CRYSTAL  
LIZED™  
SWAROVSKI ELEMENTS

CRYSTALLIZED™ – *Swarovski Elements*

## TECHNOLOGICAL *turns lyrical*

### POETRY OF PRECISION

Innovative since 1895, Swarovski has always been dedicated to perfection in all aspects of crystal creativity.

True to the strong humanitarian values set down by its founder, Daniel Swarovski I, the company is committed to nurturing the welfare of its employees, the community and the environment across all of its activities.

### ELEMENTAL ATTRACTION

CRYSTALLIZED™ – *Swarovski Elements*,  
the scintillating soul of design.

The celebrated, precision-cut crystal elements have become an essential ingredient of luxury. In a vast variety of contemporary cuts, colours and textures, they unleash boundless creativity. A radiant play of light, energy and emotion.

### CATALYSING IMAGINATION

Crystal, the dream-maker, an infinite source of inspiration.

Mutually beneficial collaborations with artists, artisans and designers in all creative fields.

Trend expertise, ideas and concepts shared with partners.

### LOVE AT FIRST LIGHT

The power to stir emotions and awaken the senses.

Perfect, light-filled, endlessly versatile crystals transform creative visions into objects of desire.

The brand serves as a sign of authenticity and integrity:

“Made with CRYSTALLIZED™ – *Swarovski Elements*”.

#### **GENERAL WARNING**

Loose crystals may present a small parts hazard to young children, particularly children under three years old. Depending on the size of the crystal and any attached material (such as glue, fabric, etc.), children may choke on, inhale, swallow or insert the crystal into nose. With crystal applied magnetic products pose a particular risk of serious intestinal injuries if ingested.

The application techniques in this manual do not guarantee that crystals will not come loose. For each application, the manufacturer must determine whether the product meets relevant requirements related to small parts hazards and assess any risk it may pose to small children.

Failure to follow Swarovski's care instructions may result in damage to the crystal, which could pose a risk of laceration or other harm.

#### **WARNING FOR CRYSTAL TATTOOS**

Crystal tattoos may be applied on health skin only. Do not adhere to eyes or on mucous membranes. Crystal Tattoos are not recommended for young children. Loose crystals may present a small parts hazard to young children, particularly children under three years old. If a crystal comes loose, depending on the size of the crystal, children may choke on, inhale, swallow or insert the crystal into nose.

#### **WARNING FOR MAGNETIC PRODUCTS**

Loose crystals may present a small parts hazard to young children, particularly children under three years old. With crystal applied magnetic products pose a particular risk of serious intestinal injuries if ingested. For each application of magnetic crystal products, the manufacturer must determine whether the product meets relevant requirements related to small parts hazards and assess any risk it may pose to small children.

#### **WARNING**

Application of loose crystals to tableware presents a risk of aspiration, choking, swallowing, or tooth damage. To reduce this risk, crystals should never be applied to any surface of tableware likely to come in contact with food and crystals should never be placed on any tableware intended for use by children. To avoid dishwasher damage, tableware decorated with crystals should be washed by hand.

The application techniques in this manual/suggestion do not guarantee that crystals will not come loose. For each application, the manufacturer must determine whether the product meets relevant requirements related to small parts hazards and assess any risk it may pose to small children.

The use of crystals (which may contain substances known as hazardous) and adhesives on tableware is subject to legal restrictions in specific countries. The customer is fully responsible to comply with these country-specific provisions and shall defend, indemnify and hold Swarovski harmless from any and all third-party claims based on product liability or otherwise relating to uses of Swarovski products and waives all its own claims against Swarovski.

#### **NOTICE FOR APPLICATION ON PACKAGING**

The use of crystal that may contain substances like lead, cadmium or hexavalent chromium, on packaging is subject to legal restrictions in specific countries, including but not limited in regard to the total content of substances based on the proportion between crystal mass to the remaining weight of packaging. The customer is fully responsible to comply with these country-specific provisions and to pass on this information to his customers.
